

Biases in the data

- Reporting bias
 - Is training data missing certain types of inputs?
 - Study the data for missing values, skews, outliers
 - Think corner cases
 - Swear words, neutral reviews
- Performance bias
 - Understand and question hypothesis.
 - Study and experiment
 - Is fast loading better?
- Prejudices in the data
 - Understand what the system should not learn
 - Why did Google think if father is a doctor and mother should be a nurse?
 - Why did my net think men are better than women
- Are cultural differences likely to create issues
 - Ask experts
 - Is head shake a yes or a no?
 - Writing and speaking styles
